

HOLOCAUST DEPROGRAMMING COURSE

Free yourself from a lifetime of Holo-brainwashing about “Six Million” Jews “gassed” in “Gas Chambers Disguised as Shower Rooms”

ABOUT

The Holocaust Deprogramming Course is a comprehensive list of the main body of factual arguments refuting the alleged Jewish Holocaust of World War II; as well as video documentaries, books and technical reports. With an open mind and basic critical thinking skills anyone who works their way through this list can not come away still believing the fictional Holocaust narrative that millions of Jews were exterminated in gas chambers using Zyklon-B.

The three basic facts are:

1. There was no plan to exterminate Europe’s Jews. Only to deport them.
2. No homicidal gas chambers existed at any of the camps during the war and no examples of a genuine homicidal gas chamber exist today at any of the camps nor has anyone shown how these non-existent homicidal gas chambers were supposed to technically function.
3. The six million figure has been officially false since 1989 when the official death toll at Auschwitz was reduced from 4 million to 1.5 million.

“The Holocaust is a deeply anchored belief even in people who know very little about it. We can see that not only does disbelief in the Holocaust myth threaten modern Jewish identity as shaped by political Zionism, but for others it brings into question the credibility of those in authority who told everyone it was true: the state, the churches, the schools, and media of every kind. These sources are the same ones people trust and depend on every day for information. If these trusted authorities are wrong about the Holocaust,

what else are they wrong about? What other dishonesties are they promoting?” – John Weir, The Holocaust as Myth: Betraying the Public Trust

*“It’s not a matter of what is true that counts but a matter of what is perceived to be true.”
– Henry Kissinger*

“The men the American people admire most extravagantly are the most daring liars; the men they detest most violently are those who try to tell them the truth.” – H. L. Mencken

“The Holocaust has proven to be an indispensable ideological weapon. Through its deployment, one of the world’s most formidable military powers, with a horrendous human rights record, has cast itself as a ‘victim’ state, and the most successful ethnic group in the United States has likewise acquired victim status. Considerable benefits accrue to this specious victimhood – in particular, immunity to criticism, however justified.” – Norman G. Finkelstein of the City University of New York in The Holocaust Industry (2000), p. 3

HOLOCAUST???

Swimming pool for prisoners at Auschwitz?

Healthy inmates celebrating at "death camp" liberation?

Camp currency for inmates to make purchases at "death camps"?

NO GAS CHAMBERS?

Advanced chemist Gernar Rudolf says "no". Not only were most of the alleged 'chambers' incapable of containing the deadly cyanide gas, the walls of every 'chamber' show no incriminating iron-cyanide residue -- a telltale sign of heavy Zyklon-B (cyanide) use. To the contrary, every delousing chamber (for lice control of inmates) shows immense iron-cyanide residue due to Zyklon-B having been used for fumigation purposes. After several attempts to challenge these assertions by chemists such as Richard Green, Rudolf's conclusions remain irrefutable.

NO 'EXTERMINATION' SITES?

In addition to the [non-existent] tens of millions of pounds of human ash from alleged open-air cremations at various 'extermination' sites, there are claims of more than 2 million Jews having been murdered by the Einsatzgruppen, a specialized branch of the German military. Their bodies are said to have been buried in mass graves throughout Europe. Despite the exact location of several of these alleged graves being known, and despite modern technology which could easily verify the integrity and DNA identity of human remains, there has yet to be a single legitimate investigation to adequately demonstrate even one of the allegedly genocidal 'mass graves'. Photographs of the numerous WWII mass graves from throughout Europe are frequently mis-captioned and misrepresented by the Holocaust industry as Nazi atrocities against Jewish people. At least one mass grave, found in the Katyn forest, has been irrefutably proven to have been blamed on the Germans despite being a Soviet atrocity and cover-up.

NO '6 MILLION' DEAD?

There is simply no sustaining evidence that total Jewish casualties within Nazi-occupied territories during WWII exceeded more than approximately 300,000 to 500,000. Not only is there no documentation to suggest any Jews were part of an 'extermination plan', but contemporary census data to account for the amount of missing Jews has been evidently scarce, inconsistent and unreliable. In some cases, post-war 'updated' figures have been released -- without any supporting data -- by Jewish institutions of questionable impartiality. A far more authentic approach has been contained within statistical analyses of census and demographic data, such as that conducted by Walter Sanning, which have been useful in establishing reasonable estimates despite a handful of noteworthy errors. While it is undoubtedly certain that many Jews perished unfairly in the turbulent conditions of wartime German-occupied territories, it has been relatively common for Jewish survivors to presume any lost relatives were 'exterminated' or 'gassed'. The reality is that countless Jews were separated from their families within the concentration camp system and emigrated to numerous locations around the world, following the war. Antisemitism was still present throughout Europe during this period, so many Jews changed their names, no longer affiliated as being Jewish, or other methods that would make it difficult for them to be located and identified. The International Tracing Service at Bad Arolsen, even today, reunites an average of 30-50 Jewish families per year. Based on a consideration of evidence, the figure of '6 million' is purely propaganda.

HUMAN SOAP? SKIN LAMPSHADES? EVIL DOCTORS?

There are numerous testimonial claims of a wide variety of absurdities that have accompanied the widely-accepted 'gas chamber' tale. Among the most well-known are Ise Koch's alleged 'human artifacts'. However, others range from 'human spanking machines' to 'electric floor execution chambers', 'Nazi pot-shooting of newborn babies', and more.

NO QUESTION?

- The well-documented reality of Jewish internment in concentration camps during World War 2 begins, in part, with the Jewish boycott on German goods in 1933 and declarations of anti-German aggression from prominent Jewish figures in the Western world. Jews were perceived as a threat to the war effort in Germany and were thus imprisoned. This was similar to the Japanese internment within the United States.
- In every relevant German document, the "Final Solution" refers only to a policy of deportation for Jews to Eastern occupied territory at the end of the war.
- Despite a blatant lack of evidence for the official narrative, Holocaust Revisionists are labeled as though they are "denying" indisputable facts. "Holocaust Denial" is illegal in 13 European countries which means that researchers are frequently imprisoned for questioning the propagated storyline.
- Worst of all, a relative handful of dishonest benefactors of the Holocaust Industry have invented allegations of 'gas chambers' and 'extermination' which serve only to bring more pain to the true victims of the era.

"Atrocity propaganda is how we won the war. And we're only really beginning with it now! We will continue this atrocity propaganda, we will escalate it until nobody will accept even a good word from the Germans, until all the sympathy they may still have abroad will have been destroyed and they themselves will be so confused that they will no longer know what they are doing. Once that has been achieved, once they begin to run down their own country and their own people, not reluctantly but with eagerness to please the victors, only then will our victory be complete. It will never be final.

Re-education needs careful tending, like an English lawn. Even one moment of negligence, and the weeds crop up again - those indestructible weeds of historical truth."

Said after the German surrender in 1945, in a conversation with the
German professor of International Law, Dr. Friedrich Grimm.**
